

# Harsh Shah

Boston, Massachusetts | 781-8242688  
shah.harsh8@northeastern.edu | LinkedIn | Github  
Available: Spring 2025/Summer 2025

## EDUCATION

<b>Northeastern University</b> , Boston, MA	Jan. 2024
<b>Khoury College of Computer Sciences</b>	Expected graduation: Dec. 2025
Master of Science in Computer Science, <b>GPA: 4.0/4.0</b>	
Relevant courses: Programming Design Paradigm, Foundations of Artificial Intelligence	
<b>Savitribai Phule Pune University</b> , Pune, India	June 2023
Bachelor of Engineering in Computer Engineering, <b>GPA: 9.11/10.0</b>	

## SKILLS

<b>Languages:</b>	Java, C++, Python, Go, HTML, CSS, JavaScript
<b>Databases:</b>	MySQL, MSSQL, MongoDB
<b>Tools/Frameworks:</b>	Microsoft SQL Server, Grafana, JUnit, Tensorflow, Keras, Docker

## WORK EXPERIENCE

<b>Northeastern University</b> , Boston, Massachusetts	May 2024 – Present
Teaching Assistant for CS 3000	
<ul style="list-style-type: none"><li>TA for CS 3000 (<b>Algorithms and Data</b>) course for the <b>Summer-1 and Fall 2024 term</b>, providing support through grading, facilitating discussions, and offering office hours to help students understand the concepts.</li></ul>	
<b>Knorr-Bremse Technology Center India Pvt, Ltd.</b> , Pune, India	Apr. 2022 – Apr. 2023
Software Engineer Intern	
<ul style="list-style-type: none"><li>Developed an efficient <b>Python</b> script to automate the process of updating <b>MS SQL</b> database using CSV files significantly enhancing the efficiency and accuracy in data management process.</li><li>Designed and maintained <b>Microsoft SQL Server database schema</b> to support various Software Engineering Key Performance Indicator (KPI) metrics following the <b>Agile methodology</b> for software development.</li><li>Created <b>Grafana</b> dashboards for live data visualization of various KPI metrics.</li></ul>	
<b>ShapeAI</b> , Pune, India	Sept. 2021 – Dec. 2021
Data Scientist Intern	
<ul style="list-style-type: none"><li>Developed a project for <b>heart disease detection</b> based on <b>Support Vector Machine (SVM)</b> with multiple kernels achieving an accuracy of <b>96%</b>.</li><li>Used <b>scikit-learn</b> and <b>matplotlib</b> for <b>statistical data analysis</b> of patient symptoms and creating effective visualizations to observe the trend of symptoms over wide range of patients.</li></ul>	

## PROJECTS

<b>Text Translation</b> , Transformer and LSTM Architecture ( <a href="#">link</a> )	Jan. 2024 – Apr. 2024
<ul style="list-style-type: none"><li>Collaborated on a team project to develop an efficient, high-quality text translation system using <b>natural language processing architectures</b> to promote global communication and cultural exchange.</li><li>Developed <b>transformer</b> architecture without using any existing libraries to translate from <b>French</b> to <b>English</b> achieving an accuracy of <b>91%</b>.</li></ul>	
<b>Image Manipulation and Forgery Detection</b> , Image Segmentation Model and deep learning ( <a href="#">link</a> )	July 2022 – May 2023
<ul style="list-style-type: none"><li>Led a team on machine learning project to develop an image manipulation detection model using the <b>ResNet</b> and <b>Unet</b> architecture achieving an accuracy of <b>93%</b> to detect image manipulations on the <b>CASIA dataset</b>.</li><li>Conducted a survey on existing technologies and provided a <b>faster way</b> image recognition and manipulation detection.</li></ul>	
<b>Driver Drowsiness Detection</b> , OpenCV and Convolutional Neural Network ( <a href="#">link</a> )	July 2021 – Sept. 2021
<ul style="list-style-type: none"><li>Created a <b>Python</b> application utilizing <b>OpenCV</b> to detect driver drowsiness in real-time using <b>CNNs</b>.</li><li>Achieved <b>90%</b> accuracy in predicting driver drowsiness, coupled with an integrated alarm system to alert the driver to pull over, ensuring timely intervention and accident prevention.</li></ul>	

## PUBLICATIONS AND CERTIFICATES

<b>Publications:</b>	Exploring the Potential of Generative Adversarial Networks: A Comparative Study of GAN ( <a href="#">link</a> ) Autonomous UAV Swarms: Powering Up with AI ( <a href="#">link</a> )
<b>Certifications:</b>	Neural Networks and Deep Learning (Coursera), Database Programming with PL/SQL (Oracle)
